FOR IMMEDIATE RELEASE:

Alsip, IL – January 2014 – GC America introduces GC Initial Zirconia Disk.

An extremely high quality zirconium disk is now available to the GC Initial portfolio. The Zirconium Disk is Cold Isostatic Pressed (CIP) for optimized physical properties. There are two types to choose from: Standard Translucency (ST) is ideal for veneering and High Translucency (HT) is ideal for full contour, monolithic restorations.

Characteristics and benefits:

- Extremely high quality zirconium
- Cold Isostatic Pressed (CIP) for optimized physical properties
- Ideal for veneering
- Ideal for full contour monolithic restorations

The GC Initial Zirconia Disk will be available February 20, 2014.
