

The color gradient of natural teeth and their intelligent imitation

By MDT Stefan Roozen, Austria

MDT Stefan Roozen was born in Tyrol (Austria) in 1980. In 1995 he began his training as a dental technician, graduating in 1999 in Salzburg. Since then he attended numerous training courses at home and abroad. In 2001 he started at Pils Zahn-technik GmbH where he still works today as laboratory manager and deputy of the management. In 2002, he attended the master school in Baden/Vienna, where he graduated in 2003 as a master. His main areas of work are complex prosthetic reconstruction (tooth and implant supported), demanding restorations in the aesthetic and functional area. He is the author of several international publications, external speaker at the Austrian master school, speaker and co-speaker at international course and congress events focusing on fixed reconstructions, ceramics, implantology, prosthetics and CAD/CAM.

The new GC Initial™ IQ ONE SQIN staining and micro-layering concept enables the production of natural-looking restorations with minimal use of veneering materials. Aesthetics and efficiency are combined with the complete system of new glazes and micro-layer ceramics.
